PROFILE

I am a highly driven software developer with experience developing engaging and scalable applications in Agile Scrum environments. I thrive when challenged and have developed a diverse range of software solutions from automation tools to full stack applications for thousands of users. I am currently seeking an opportunity to become a part of a high performing software development team.

TECHNICAL SKILLS AND CERTIFICATIONS

Languages: Python, Java, C++, SQL, TypeScript, JavaScript, Bash (Shell Scripting), HTML/CSS

Frameworks: NextJS, ReactJS, FastAPI, JUnit, Spring Boot **Databases:** MongoDB, PostgreSQL, DynamoDB, Redis

Developer Tools: GitHub, Jira, Docker, Postman, Linux, AWS, EC2, Maven

Libraries: Selenium, Playwright, PyMongo, JDBC

Certifications: AWS Certified Cloud Practitioner, AWS Certified Developer Associate (Candidate)

PROFESSIONAL EXPERIENCE

Computer Repair Associate

Best Buy, Ottawa, Ontario

August 2018 – September 2020

- Worked with peers to systematically diagnose complex business software and hardware complications.
- Managed the status of computer part orders and in-store customer repair tickets.
- Presented troubleshooting assistance and tutorials for computers, tablets, and phones to clients with varying levels of technological literacy.

IT Technician

December 2017 – April 2018

A-Z PC Computer and Laptop Repair, Glendale, Arizona

- Installed computer desktops, monitors, servers, switches, and other networking related hardware for dozens of medical offices, allowing clients to operate workplace practices reliably and securely.
- Configured and fine-tuned network client's office infrastructure to facilitate seamless communication and connectivity across multiple systems.
- Assembled workstations allowing clients to secure critical information in the event of hardware failure.

PERSONAL PROJECTS

Developer

June 2023 - Current

Snapcaster (snapcaster.ca) Victoria, British Columbia

- Collaborated on a full stack web application serving thousands of monthly users, free and paid, that aggregates top deals for collectible trading cards using Python, TypeScript, and NextJS.
- Automated CRUD operations for over 3 million unique trading cards on the Canadian market using MongoDB and Redis.
- Deployed Snapcaster's advanced search module, API development, testing, and system redesign decisions in an Agile Scrum environment using tools such as Jira, Postman, and Docker.

HENRY NGUYEN

Henry.minh.n@gmail.com | Ottawa, Ontario | (873)-376-3797 View my portfolio: henry-nguyen.ca

Developer

November 2022 - December 2022

Real-Time Warehouse Order System, Carleton University

- Developed a C++ Client-Server warehouse system capable of managing atomic transactions for large-scale real-time orders.
- Designed a back-end system that upholds inventory data integrity using threads and mutexes, guaranteeing no overselling occurs.
- Contributed to the round-robin scheduling system that prioritizes threads based on product availability, quantity, and purchase timing.

Researcher and Developer

May 2022 - December 2022

Shopify Checkout Automation Tool - A Study on Scalping Attacks, Carleton University

- Explored practical security solutions for managing high-demand, first-come-first-served product launches on Shopify.
- Automated JSON product monitoring, carting, and captcha solving using REST APIs in Python to highlight e-commerce design vulnerabilities.
- Created a responsive GUI with QT and Selenium that creates mass simultaneous Shopify checkout processes using threading.

Developer

October 2021 - December 2021

Bookstore Inventory Management System, Carleton University

- Coded a Java application for an online bookstore, enabling users to browse and purchase from an
 extensive range of products.
- Implemented a backend solution enabling owners to access financial statistics, inventory management, and the ability to manage book orders.
- Designed a database system utilizing pgAdmin, PostgreSQL, and JDBC to efficiently manage and organize essential data.

EDUCATION

Bachelor of Computer Science (Honours)

September 2019 – February 2023

Carleton University, Ottawa, Ontario

VOLUNTEER

Rocky Road Rescue (Dog Rescue)

May 2023 - Current

Transport Volunteer (Vet Appointments/Supplies), Ottawa, Ontario
